### **DETAILED ACTION**

1. This Official Action is in response to the amendment filed 2 December 2009.

Claims 1-10 are pending in the application.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 112***

2. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 recites the limitation "the portion on the base member" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

#### ***Claim Rejections - 35 USC § 102***

3. Claims 1-4 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Katz et al (US 3,648,891).

1: Katz discloses a packaging characterized in that the packaging includes a base member 1 and a slider 2, slidable relative to the base and having a first position (closed) and a second position (fig. 1) exposing an end of the retained article. Although disclosed for use in retaining pencil leads, the device is capable of retaining an ICSI pipette; such a limitation being considered an intended use.

2, 4: Katz discloses grip portion 3.

3: Base member 1 is made of top and bottom portions (fig. 5), with the top portion being arranged to extend over a part of the retained item.

8: Katz discloses a clip (grooves of Figure 2).

### ***Claim Rejections - 35 USC § 103***

4. Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bouveret (US 5,417,926) in view of Katz et al (US 3,648,891).

Bouveret discloses a base member 1 supporting an ICSI pipette 2 (see col. 1:25-30) within a clip 9-12; the pipette having a thick end (body portion of 2) and a thin end 3. Bouveret does not disclose a slider.

However Takeo teaches the provision of a slider 2 within a base member 1 for the purpose of enabling easy access, and for said purpose, it would have been obvious to one of ordinary skill in the art to provide the assembly of Bouveret with a body-slider arrangement as taught by Katz.

### ***Allowable Subject Matter***

5. Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3728

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

### ***Response to Arguments***

7. Applicant's arguments with respect to claims 1-10 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
